Works Segments

[Request Edit](#)

The location(s) of excavations or trenches required for these works are marked on the map below. Click a marker or trench line to view the excavation area and work segment details.

Location Description:
Along R446 Oranmore to Reaskmore Craughwell Galway See maps attached showing full extent of works to clear blockages and raise buried boxes on Eir network

Road Segment Number: **Not Specified**

R446

Licence Actions:

- [Submit for Approval](#)
- [Refuse Licence](#)

Stage Description:

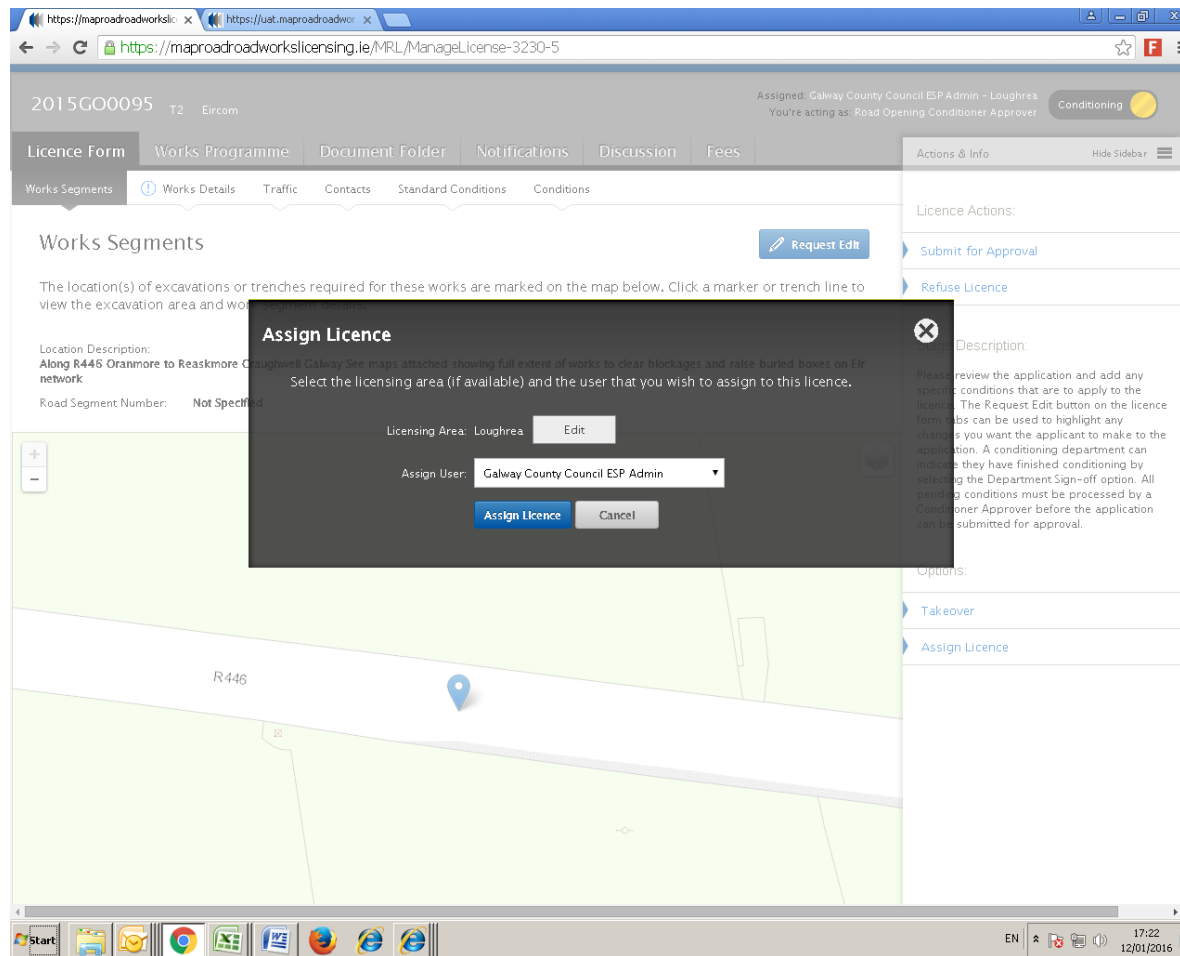

Please review the application and add any specific conditions that are to apply to the licence. The Request Edit button on the licence form tabs can be used to highlight any changes you want the applicant to make to the application. A conditioning department can indicate they have finished conditioning by selecting the Department Sign-off option. All pending conditions must be processed by a Conditioner Approver before the application can be submitted for approval.

Options:

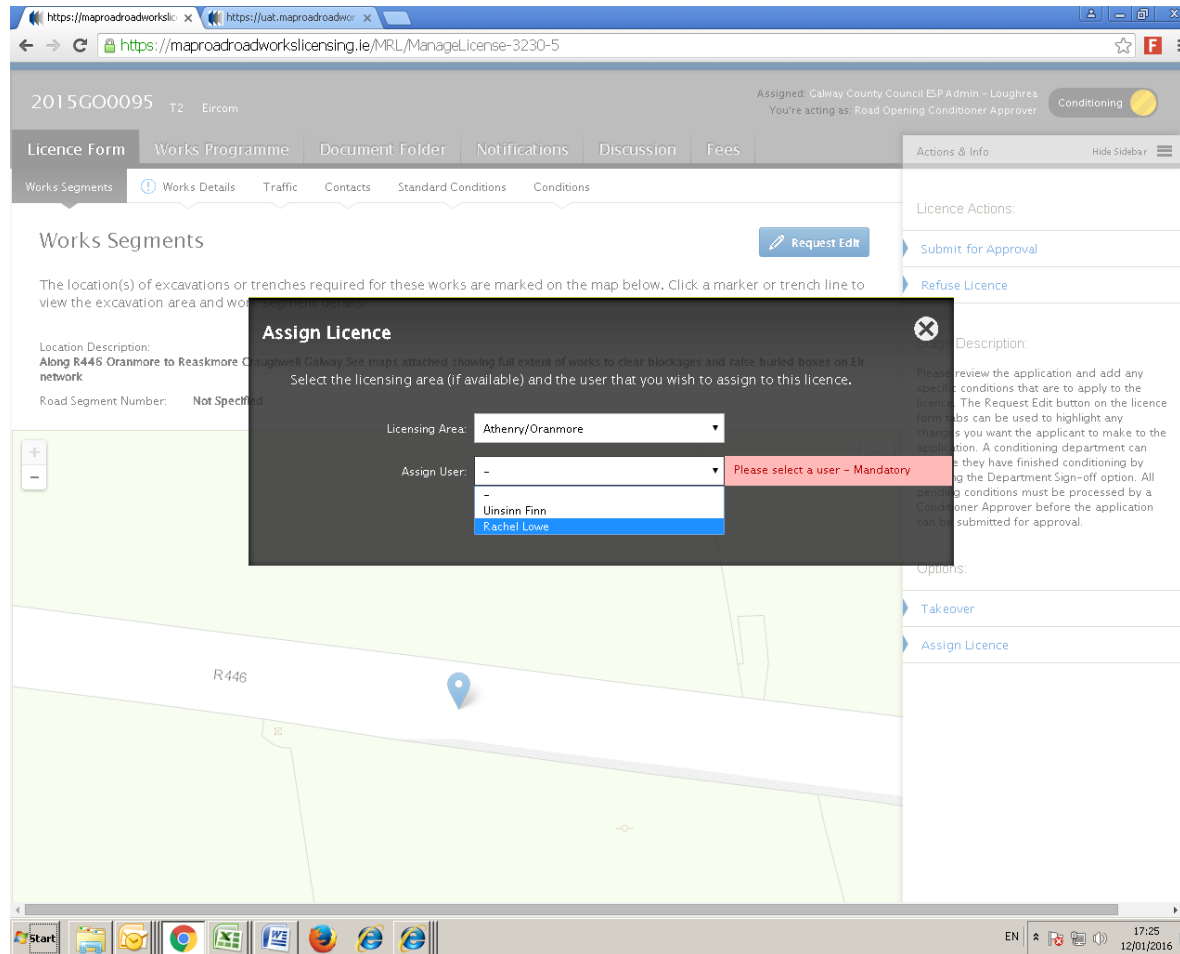

- [Takeover](#)
- [Assign Licence](#)

EN 17:19 12/01/2016

Select the Edit option to enable you to select a different Licensing Area.

On editing the Licensing Area the relevant users will automatically populate the drop down menu.
Please select relevant user.
